and Katie Kenwell

Awards:

- 2009, Excellence in design, Virginia State AIA.
- 2009, Best renovated or historic preservation project, Greater Richmond Association for Commercial Real Estate

A night-time shot of the lobby and atrium hints at the building's historic past. Constructed in 1910, the former power plant converted coal into steam to run a Lucky Strike cigarette factory next door. Following a renovation, Odell moved its offices into the 18,500 square-foot building on Tobacco Row. The renovation has garnered many awards for best historic renovation and excellence of design.
