1 Minium account sizes are general since it can vary depending on a range of circumstances.

The ranking, developed by SHOOK Research, is based on in-person and telephone due diligence meetings and a ranking algorithm that includes a review of best practices, client retention, industry experience, review of compliance records, firm nominations and quantitative criteria, including assets under management and revenue generated for their firms. Investment performance is not a criterion because audited records rarely exist and clients have varying risk levels. Rankings are based on the opinions of SHOOK Research LLC and are not indicative of future performance or representative of any one client's experience. Neither Virginia Business nor SHOOK Research receive any compensation in exchange for placement on the rankings list. For more information, visit SHOOKresearch.com.
